**SaveOnEnergy.com** has secured \$2.4 million in funding led by a group of oil and gas executives in San Antonio and El Paso.

The Dallas-based online energy broker said the new investors will acquire a minority stake in the parent company Save On Energy Ltd.

The company plans to use the additional capital for an increased marketing and advertising campaign in Texas, as well as expansion into New York and Illinois. SaveOnEnergy.com said it expects to close the transaction by the end of March.
