Save On Energy sells minority stake

10:58 PM CDT on Monday, March 17, 2008

Save On Energy Ltd. has sold a minority stake in the business to two former Texas oil and gas executives for \$2.4 million.

The Dallas company, which operates a Web site(www.saveonenergy.com) that lets residential customers compare electricity offers and switch providers, will use the investment by Donny Seay and Richard Azar, founders of San Antonio Gas and Oil, to expand into New York and Illinois.

Commercial customers, which make up about 70 percent of Mr. Moore's business, can go to the site and solicit bids from eight providers.
